

JULIANE RÖNNAU

Architect

PROFILE

A highly skilled architect having worked extensively in the design and construction of luxury residences with a focus on producing exceptional quality projects for clients. Proficient in all aspects of design, planning, documentation and construction administration.

Ability to balance client, team and consultant outcomes, delivering projects of design excellence while resolving challenging sometimes conflicting requirements and ensuring compliance with all statutory and regulatory requirements.

Especially skilled in building successful and productive working relationships with clients, strong analytical and conceptual approach to problem solving and the ability to inspire and maximise team performance promoting a collaborative environment.
